ONE SELLING SYSTEM™ — Zone Scorecards

the zone threshold to determine readiness to advance. Run before every pipeline review.

| 5 = Confirmed / Elite

1) — Qualification Readiness

Evidence / Notes	Coaching Prompt if Score ≤ 2
	Ask: 'Does this fit our ICP on all 3 dimensions?' If you're rationalizing the fit — score it a 2.
	Ask: 'Can the prospect state their pain in their own words with a business consequence?' If not — go back.
	Ask: 'What else is competing for attention and budget right now?' Low priority = low urgency = slow deal.
	Ask: 'Have we spoken to — or at minimum confirmed the identity of — the economic buyer?' No = high risk.
	Run the 4F Filter explicitly. If the score is 2/4 or below, do not advance. Disqualify or park.
	Ask: 'What would make us walk away from this deal?' If you can't answer, you haven't qualified it.

Advance threshold: $\geq 22/30$ | Below 18 = Disqualify or re-qualify

2) — Momentum Readiness

Evidence / Notes	Coaching Prompt if Score ≤ 2
	Ask yourself: 'What does our champion say about us when we're not there?' If you don't know — that's the problem.

	Ask: 'Who else is impacted by this problem that we haven't spoken to?' Single-threaded = fragile deal.
	Ask: 'Has the EB seen and reacted to our business case?' If no, you don't have a real business case yet.
	Ask: 'Is the champion updating the MAP or ignoring it?' No MAP = no shared commitment = stall risk.
	Ask: 'What happens to their business if this isn't in place by [date]?' No business consequence = no urgency.
	Ask: 'What concerns will come up when this goes to leadership?' If you're guessing — run the Objection Preemption Play.

		Ask: 'Has their priority or urgency changed since we last discussed it?' A lot can shift in a long sales cycle.	
		Ask: 'Is there anyone we haven't spoken to who could slow or block this?' If yes — engage them now.	
		Ask: 'If we weren't on this deal, would our champion still push it through?' If no — the deal is at risk.	
		Ask: 'Has the EB said the ROI justifies the investment?' Without EB validation, you don't have a decision.
