SECTION 1 — HERO

DEV NOTE: Full-width hero section. Centered content. White background.

Sellers with structured coaching programs win 28% more deals. Most sellers get none.

Source: CSO Insights

Red Zone Selling changes that. A complete coaching system for sellers and sales leaders built by someone who's been in the deal, closed it, and coached hundreds of others to do the same.

CTA BUTTON: See how it works ↓

DEV NOTE: Button scrolls to Section 3 (The System). Ghost/outline style — not a form trigger.

One system. Six ways to work together. Built for sellers who want to win more and leaders who want to build teams that do.

SECTION 2 — VINCE & THE PROBLEM

DEV NOTE: Light gray background section. Vince photo (if available) sits right of the text block.

Most sellers don't lose deals because they can't sell.

They lose because they don't know where they are in the deal — or what to do next.

That's the gap Vince Beese spent 25 years solving — first as a rep, then as a CRO, now as a Sales Strength Coach.

He's not a LinkedIn influencer recycling someone else's advice. He built his career closing real deals, leading real teams, and doing the hard work before he ever started teaching it.

PULL QUOTE:

DEV NOTE: Left red border, light gray background. Quote in italic.

"Most sellers aren't struggling because they don't work hard enough. They're struggling because nobody ever showed them a system."

— Vince Beese

SECTION 3 — THE SYSTEM

DEV NOTE: White background. Three-zone layout renders as three cards side by side with left-border color coding: Yellow, Green, Red.

Every deal lives in one of three zones.

Most sellers don't know which one they're in.

Three zones. 69 plays. Built for sellers who want to qualify harder, build momentum faster, and close with confidence.

ZONE 1 — YELLOW (border color: #E2B93B)

Qualify

Is this real? Is it worth your time? The plays in this zone help you qualify hard, disqualify fast, and protect your pipeline from deals that were never going to close.

ZONE 2 — GREEN (border color: #27AE60)

Build Momentum

The deal is alive. Now keep it moving. Multi-thread, build a business case, and create the kind of deal control that prevents ghosting and stalls.

ZONE 3 — RED (border color: #C0392B)

Close

You're in the final stretch. This is where pressure peaks and deals are won or lost. Flush friction, activate your champion, and close with confidence — not desperation.

PULL QUOTE:

"The zone tells you where you are. The play tells you what to do. That's the whole system."
— Vince Beese

BOOK CTA (subtle inline card):
